2016-2017 HomeSchool Cooperative Offerings

Homeschool Cooperative students must submit an [Online Application](#). All students, even if they have previously participated in the Homeschool Cooperative should fill out the online application for the 2016-17 school year. The application will not be necessary for subsequent years after 2016-17. This application should be completed prior to the first event in which the student chooses to participate.

If you have already filed an application for your student to play sports, please call the school office if your student chooses to participate in something else. When choosing your student's grade level at the beginning of the application, please be sure to choose the "Homeschool Application Packet" to avoid being overcharged.
